

# Introducing the ect 48 LT

## Now ect Offers Less Than Ever Before

A 4 frequency 8 channel simultaneous injection multi-frequency eddy current system designed specifically for high speed heat exchanger tubing inspection applications, weighs in at only 13 pounds<sup>1</sup>, occupies only 820 cubic inches<sup>1</sup>, and boasts a big 13 inch 1280 x 1024 color LCD screen.

- The smallest and lightest in the industry
- 4 frequency 8 channel inspections for both ferrous<sup>2</sup> and non-ferrous heat exchanger tubes.
- Supports combination RFT/NFT probes for inspecting ferrous tubes
- Built-in CD-ROM or DVD burner for permanent data storage
- Built-in ect Data Analysis Software with frequency transforms
- Built-in ect Report Software
- ect or customer supplied laptop computer

Note 1. Laptop computer included

Note 2. With an external 2 pound amplifier
